Every Pottery & Poetry item travels multiple times through a set of hands before a block of clay is transformed into a piece of art. We hand-built, dry and retouch each product carefully before it's bisque fired in the kiln. Then we sand it to smooth the surface, hand-glaze and fire once again.

All ceramic items are coated with food-safe glazes that are suitable for both eating and heating. These ceramics are dishwasher-safe and microwave-friendly.
